## IMAGE STYLING

### **BASIC FIGURE AND STYLE ANALYSIS • R1250 • 90 min consultation**

Knowing what your style personality is and what styles your Vertical and Horizontal body shape can carry, allows you the tools to be able to dress your body to the best of its ability.

This is summed up in a variety of style types, which neckline is the most complimentary for you, which jacket type and length best suits you, your ideal skirt and pants, shape and length, hem length and fit.

Accessories are also covered in this consultation and the best items to suit your style and shape.

Your face shape is also determined to assist in the correct selection of hats, glasses, earrings, hair cut.

You will receive access to an online platform with your style choices and measurements that you can access regularly to assist you with your clothing choices. Should you prefer a hardcopy this is also available instead of the online platform.

This will take place at Erin Smylie's Studio in Roodepoort. Travel fees will apply should you need me to travel.

### **COLOUR ANALYSIS • R1850 • 2-3 hour consultation**

Wearing the correct colour palette for your skin tone, immediately enhances your appearance. It should also compliment your eye and hair colour for an overall finish.

The incorrect colour tone can make you look dull, tired and less radiant.

During your Colour Analysis I determine your colour flow and which intensity best suits you in order to enhance your natural features.

You will receive a personalised colour swatch to keep in your handbag in order to assist you with making the correct colour choice when shopping on your own. You also receive notes to sum up your variety of choices based on your colour palette.

A basic make-up application will also be done to show you which colours best suit you based on your colour analysis, and a simple everyday look to wear.

This will take place at Erin Smylie's Studio in Roodepoort. Travel fees will apply should you need me to travel.

**WARDROBE ANALYSIS • R550 per hour • R450 per hour after 2 hours**

**Min 2 hours required depending on the size of your wardrobe and needs**

A Wardrobe Analysis is best done after a Style and Colour Consultation.

In your consultation I assist you with the following

- To clear out clothes you are no longer wearing either because of them being old, the colour, style or fit is not right for you
- Determining what works for you and does not
- Making a list of the gaps in your wardrobe and what needs to be purchased to add into your existing wardrobe
- Coordinating clothes that will mix and match well to suit your lifestyle and needs.

This will take place at your home. Travel fees may apply based on location.

**PERSONAL SHOPPING • R550 per hour • R450 per hour after 2 hours**

**Min 3 hours required for a new basic wardrobe**

This can be done together or I can shop on my own for you.

This experience will specifically be to find items that you can mix and match well and will provide you with a new look.

Should you be shopping for a specific event, it is best if we go together.

This will take place at a Shopping Centre within a reasonable travelling distance to both parties.

All clothes bought will be for your own account and over and above my rate.
